Summer 2007

GREAT SUCCESS for the Smart Wiring Seminars

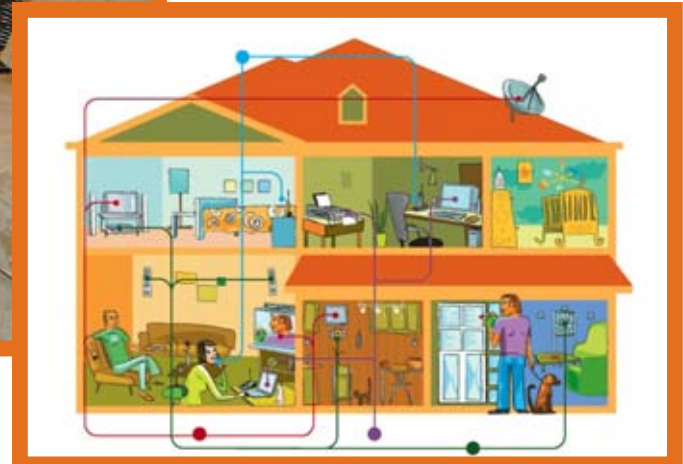

A special thank you to all the homeowners who attended the Smart Wiring Seminars hosted by John, Armando and Prakash from Mecel Security Systems. Attendees were given the opportunity to become familiar with the infrastructure all homeowners receive when you purchase a home in Spring Creek. The seminars also outlined the options and upgrades available to enhance lifestyles, and have your home wired for the future.

Useful topics ranged from placement of outlets and required wiring for televisions, phones, computers, faxes and home audio speakers to wiring your home for future technologies. Each family received a comprehensive information package which included: a home safety checklist, a copy of the TechHome™ Rating System, and information on home theatre systems.

Homeowners may arrange a visit to the Mecel Security Systems showroom in Mississauga. For more information contact Armando, John or Prakash at 905-858-8681 or log on to www.mecelsecurity.com

Community Coordinator, Spring Creek

THINGS ARE FLOWING AT SPRING CREEK!

The ongoing approval process continues to move ahead. We are currently nearing registration of the plan with the municipal and regional authorities. Prior to completing registration however, there are two issues that need to be resolved.

The first relates to the Subdivision Agreement in order to complete servicing. This signed contract must be reviewed and approved by the municipal authorities. The second issue has to do with connecting the primary water main leading into Spring Creek from Parkside

Drive. This vital water main needs to run under the CP rail tracks near the site. However, due to poor ground conditions the laying of this water main is taking longer than anticipated while a solution is engineered.

When these two issues have been resolved building permit applications can be submitted and house construction will commence soon after. In the meantime site servicing will be completed and asphaltting will commence in the month of July.

Make Your Home A Reflection Of You

Part of the excitement of buying a new home is decorating it to suit your personal style. To help our homeowners through their decision making process, Spring Creek is offering special Interior Design Seminars hosted by interior designer Joyce Dove.

Learn about upgrade decisions, colour schemes and colour choices. Get introduced to critical Dos and Don'ts that will help save you money and make your house look spectacular. Finally,

pull everything together; lighting, furniture, paint colours and learn about the latest interior design trends for 2007.

Seminar dates are scheduled for Thursday July 5th, Tuesday July 10th and Thursday July 12th. To book your seminar date, contact Carol Macdonald at 905-690-6596 or email her at community@myspringcreek.com.
